

### **Explanation about Our Volunteers**

At first We are an association formed its self-voluntary, in order to help and organize refugees society towards the adequate and a life in their new society environment , because the gap is wide ,and the differences apply many requirements, to transfer someone to be an applicable succeed person build his future and participate beneficially in the society of United states .

We have voluntary when we see there are some important require to be done for our society, and the voluntary work is applicable in the United states, as result we create an association and we select a number of people as an executive staff to lead and organize and plane and solve our cases as a society in Ohio state, the staff active from time to time as a volunteers to discuss the activities, while the president is full time volunteer in order to keep all activities of society.

Although the association has membership sharing \$10 a month, but it is a very little to keep any type of activities while can't be collected from unemployed , new arrivals , and so the refugees situation to collect money from them, on the basis of this the president of association keep all his expenses and official needs by personally while he is doing the activities of association, by side of his home is the office of association and he need to travel to the different cities of Ohio state in order to solve some cases for the society.

While we are a nonprofit association we got a profit license in order to go invest for keep our expenses and our yearly budget, but so we need a capital money to start investing, however we continued in this situation since our establishment in December 2012, although we succeed and progressed in some steps and completed our important foundation process, we need support if available, for this we must continue to create investment projects and contact somewhere to reflect our needs and our program in order to go ahead our objects and mission as volunteers for association and organization human activities where we are living and worldwide.

Suleiman Abdulrhman

The president of Darfur association in Ohio
